# The key benefits of AIOps for banks

Why five of the top 10 U.S. banks choose BigPanda.

Uninterrupted service is critical for meeting both customer expectations and regulatory standards in today's financial landscape. BigPanda AIOps empowers banks with greater visibility and reduced incident workloads to deliver always-on financial services and meet customer expectations.

Deliver reliable, compliant services

Proactive incident management is essential for maximizing service availability and ensuring regulatory compliance. AI-powered incident management helps financial institutions reduce alert noise and improve the resilience and reliability of essential operations and services.

- ✓ Modernize legacy infrastructure and reduce costs
- ✓ Eliminate non-actioned incidents and quickly prioritize and remediate critical issues
- ✓ Reduce downtime through proactive monitoring and detection
